

8/2/2000

Dear Dr. Henney,

I am writing to express my concern ~~on~~ the FDA's regulation of genetically engineered (GE) food. I request that the agency's current policies be changed, and I support all the points in docket #00P-1211.

☒ All GE foods should be labeled so I am informed and have a choice.

☒ GE foods should not be assumed to be "generally recognized as safe" and should have mandatory pre-market safety testing

☒ There should be a moratorium on GE foods until long-term studies show they are safe for human health and the environment.

(Additional Personal Comments:)

*I am 83 years old - government has certain responsibilities that we all have united for - among them clean, SAFE food, please act.*
